

**"Personal Best PR" Training Plan - includes Track workouts!  
4 days/week for 16 weeks**

Prepare for your training by building on your base level of fitness: First, buy great-fitting running shoes. Then, start walking, jogging, or running 20-60 minutes at least 3 days per week. Next, find ways you can cross-train (see Legend below for examples). The best way to 'stick with it' is to find a partner, running club, or a team of 10 to train with! Warm up before your run with dynamic exercises and be sure to stretch afterwards. Happy Training - and have a great race!

**Legend**

**Run/Walk** Whether you run or walk the miles, emphasize the importance of accomplishing the distance - pace is not as important on these days.

**XT** Cross training can be biking, elliptical, rowing, swimming, stairclimber, yoga/pilates class, plyometrics... anything EXCEPT running!

**Strength** Variable resistance machines, free weights, dumbbells, Bosu balls, etc.

**Core** Exercise designed to working the abdominal and low back muscles (sit ups, planks etc). Yoga/pilates classes are excellent for engaging core muscle work.

**Tempo** Run 30-45 seconds faster per mile than your race pace goal (ie, if your goal is 9 min/mi, run an 8:30 min/mi or 8:15 min/mi as your tempo pace).

**Neg Split** Run the second half of the mileage faster than the first half. Negative splits improve strength, endurance and speed for your final kick.

**Massage** Full head-to-toe massage.

**LSD** Long Slow Distance: the goal of LSD runs are to log time on your feet. Go slow and take walk breaks, if needed.

**Back-down** Mileage decrease from the previous week will allow time for recovery.

**Hills** Choose a route that has some hills to increase your stamina.

**Speedwork** A series of alternating fast and slow paces within a training run. i.e. "6 x (5/2)" means run for 5 mins fast followed by a 2 min jog/walk. Repeat 6 times.

**Track** Speedwork while running around a standard 400-meter track. i.e. "3 x (2 x 800m)" means run fast around the track twice, then rest 30 seconds. Repeat. Rest until recovered, then repeat 3 times." Precede and follow up each track workout with a 1 mile easy run (4 x 400m).
